

Follow the instructions below to create your own Foil Easter Eggs.

When you are finished, why not share a picture of your creation to our social media pages?

You will need...

- Tin foil
- Cardboard
- Scissors
- Felt tip pens or coloured markers

Step One

Draw an egg shape on your cardboard.

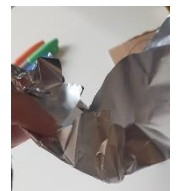

Step Two

Cut it out using your scissors.

Step Three

Wrap your tin foil around the card shape. As pen does not show up on the shiny side of the foil, make sure the dull side of the foil is facing outwards.

Step Four

Decorate your egg using pens or markers.

Extra Step

As an extra, if you want your patterns to look more vivid, you can use paper, pens and glue to stick patterns onto your foil egg. Why not try using old wrapping paper or gift cards?
