

Follow the instructions below to create your own Rainbow Bookmark.

When you are finished, why not share a picture of your creation to our social media page?

You will need...

- Double sided tape or sellotape
- Cardboard
- Scissors
- Ruler
- Pen or pencil

Step One

Use a pencil and ruler to draw out a straight strip of card from an old cardboard box.

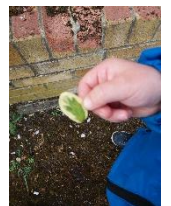

Step Two

Cut out the strip of card with scissors.

Step Three

Use double sided tape (or sellotape) to stick a strip down the middle of the card. Leave the backing on the double sided tape.

Step Four

Go outside! Either take a family walk or have a wander about your garden. Pick up things like leaves, petals and seeds to stick on your bookmark. It is best not to pick things that are still growing!!

Step Five

Gradually peel the backing off your tape and stick the things you find on the bookmark as you go.
